

Print guide 1/2 - 215.9 x 279.4 mm paper

Print this guide first. Disable Fit, Shrink, and printer scaling. Measure both square edges.

If either edge is not 100 mm, correct printing settings before printing pattern sheets.

Use only this paper format. Tile each piece separately in row order, left to right.

Trim the top/left frame borders on adjoining sheets; overlap the repeated 10 mm strip.

Match dashed guides, crosses and repeated pattern lines, then tape without stretching.

Solid: cut contour. Dashed: seam line. Arrow: grain. +: notch or button placement.

Small circle: buttonhole center, NOT slit size. Transfer marks before cutting a toile.

Legacy pieces have seam outlines only: do not cut without adding required allowances.

Named left/right torso and sleeve pieces form mirrored pairs; cut opposite fabric faces.

100 x 100 mm calibration square

Portrait; margins: 12 mm sides, 22 mm top/bottom. Repeated overlap: 10 mm.
