

1. Design overview

Original garment — no preset required

Original brief: A boxy top with an asymmetric collar. Preserve the unsupported detail.

Saved revision: 1 (SNM-z96EWsdI1MQ4VFR6liN0); created 2026-09-14T19:30:42.389Z

Size scope: Not specified

Geometry starting family: none

Garment length parameter: unknown; source: Not supplied

Ease parameter: unknown; source: Not supplied

Flare ratio: 1

Geometry scope: Limited manual CPU adapter; no physical-fit approval or full design realization claim.

Completeness and capability

0 unsupported or unresolved requirements; 0 unknown POM targets; 0 owner-entered construction notes. Pattern disclosure: not_generated.

Original unsupported intent is retained. Supported means representable by the adapter, not physically validated. No AI interpretation, simulation, calibrated cutting candidate or physical-fit approval is supplied.

Requirements not supplied.

Body inputs omitted by disclosure policy.

Body inputs and source images are omitted unless selected. Garment parameters, finished measurements, free-text notes and included geometry may still reveal body-related or personal information; redaction is not anonymization. Review these owner-entered fields before sharing.

2. Garment flats

Garment flats describe the assembled garment. Pattern panels are not garment flats. Reference photographs and sketches are not simulation or physical-fit evidence.

Front view

Front view not supplied as a technical flat.

Back view

Back view not supplied as a technical flat.

Detail view

Detail view not supplied as a technical flat.

Stable callouts

No callouts supplied.

3. Materials / BOM

Material properties and quantities below are owner-entered. Missing consumption, substitutions and material behavior remain unresolved; panel area does not establish purchasing yardage.

47c48c8b-c9e7-4bb3-bbc1-625772a21a76 / Cotton twill — sourcing undecided (fabric)

- Specification: Not supplied
- Placement: Not supplied
- Quantity / basis: Not supplied
- Source: Not supplied

4. Finished-garment measurements

These are defined garment POMs, not body dimensions or panel bounding boxes. Unknown and not-applicable states are retained; unspecified values are not zero. A size label is not a graded range.

No finished-garment POMs supplied. Geometry is not used to invent them.

Grading rules: not established by this prototype.

5. Construction

Construction instructions not supplied.

Engine assembly links are absent or not disclosed.

Seam compatibility, allowance policy, fabric behavior, construction feasibility and pressing/closure details are not inferred from outlines. Unspecified treatments remain open questions.

6. Pattern inventory

Generated garment patterns are reference-only and NOT cutting ready. No cutting-candidate classification, print calibration, seam/annotation validation or physical-fit evidence is supplied. When selected, original pattern files are included byte-for-byte, never restamped or rescaled; bundle identity belongs to this manifest and the separate tech pack.

Status: not_generated

No panel geometry is displayed. An absent or withheld pattern is not replaced by an illustration.

Annotation checks not performed: seam allowances, grain, notches, cut counts/folds, material assignments and grading. Reported annotation strings do not establish completeness. No print calibration or physical scale check is recorded.

7. Review and change record

Revision: 1; SNM-z96EWsdI1MQ4VFR6liN0

Parent revision: None (first saved revision)

Snapshot cutoff: 2026-09-14T19:30:42.644Z

This is the selected immutable revision. No current editor buffer or later job is read. A parent revision ID is a history link; a computed change diff is not supplied.

No revision-scoped review comments supplied.

Open callouts

No callouts supplied.

Disclosure and limitations

Body input fields and their provenance are omitted.

Source reference images, sketches, technical-flat images, labels and source captions are omitted.

Pattern files, panel geometry, engine warnings and engine assembly links are omitted.

No AI interpretation, simulation, cutting-candidate classification, print calibration, physical-fit approval or independently authenticated maker review is included.

Contact records and raw model exchanges are not part of this export schema. Owner-entered free text is not automatically scrubbed of personal information.

Body inputs and source images are omitted unless selected. Garment parameters, finished measurements, free-text notes and included geometry may still reveal body-related or personal information; redaction is not anonymization. Review these owner-entered fields before sharing.

Editable manifest changes are proposals only. They cannot rewrite this saved revision, artifact bytes, service evidence or reviewer identity. Retain unknowns and unsupported intent when returning feedback.

PDF text uses embedded DejaVu Sans and NFC display normalization. Unsupported glyphs, control/bidirectional formatting characters and right-to-left script characters are shown deterministically as [U+XXXX] code points instead of dropping text or presenting incorrect shaping/order. JSON retains the exact original strings.
